ANNUAL REPORT 2019-2020

I have great pleasure to present this annual report which enumerates the labour of love, activity and achievements of the school during the academic year 2019-2020. Our pupil of classes LKG – V walked into the school with new energy and enthusiasm to commence the new academic year filled with new dreams and surprises on 27th June 2019 and were warmly welcomed at the school assembly and then initiated to the entire years programme by their class teachers.

ACADEMICS

“The philosophy of the school classes of one generation

will be the philosophy of the government in the next.”

I wish to begin with our performance on the academic front. Achieving academic excellence is at the heart of our endeavour as educators. Academic achievements reflect a demonstrated ability to perform to the best of one’s ability by developing one’s intellectual potentials and skills with diligence and ardour. We are happy to share the details of the commendable performances of our students of Classes LKG to V.

At SPDS Jayanthi Vidyapeedam all examinations are conducted in a CBSE board format where the question papers are designed by multiple teachers so that every time a child writes the exam, he is facing a new challenge on his own without any help from his teachers.

We have incorporated smart class in each and every class room for the better demonstration. The SMART CLASS provides great support through audio visual approach in addition to the normal chalk and talk method. The school has tied up with LEAD SCHOOL curriculum for interactive teaching from LKG to V.

Our students were given the opportunity to participate in All India Talent Examination in mathematics organized by Olympiad foundation of different streams. Many students have attended the examinations.

The Public Speaking has been organized from primary classes to enhance their communication skills and to perform better on the stage.

A large number of projects have been implemented in the year to emphasize on the concept of learning through doing for better concept penetration.

PROFICIENCY – TESTS

“Nothing changes, until you change.

Everything changes, once you change.”

Mental Ability Test for Classes I-V students were held to judge the students power of reasoning, ability to think and judge, evaluate or discriminate and the ability to visualize in the space.

The outcomes of these tests are shared by our teachers with the parents and guidance provided.
